A black and white photograph showing a large, rectangular building component with a prominent glass window being hoisted by several thick cables. The component is being moved into place next to a larger brick building. The sky is dark, and the overall scene is industrial and dramatic.

2023 MEDIA KIT

The Offsite Construction Network offers news, interviews, webinars, best practices, and focused in-person events that promote the abilities of offsite construction across all markets.

IN PERSON

The Offsite Construction Network will host two events in 2023 will featuring presentations and exhibits from offsite construction manufacturers and contractors, traditional contractors that have integrated offsite methods, offsite factories, transportation companies, architects, engineers, BIM suppliers, materials suppliers, and consultants of all types of offsite construction processes.

Additionally, these live events will provide educational insights into offsite construction with multiple speakers, presentations, and several hours of dedicated exhibit time.

ON DEMAND

In addition to live events, the Offsite Construction Network provides exclusive online content and industry listings throughout the year on its revamped and expanded website, offsiteconstructionnetwork.com.

Featuring regular educational webinars, interviews and insights from notable industry leaders, and a wide variety of articles and resources, the Offsite Construction Network provides the perfect platform for building brand awareness and supporting the offsite construction industry.

WHY SPONSOR?

Reach all facets of the offsite construction industry online and in-person!

Sponsor the Offsite Construction Network and/or exhibit at its live events to spread awareness of your company to architects, developers, contractors, owners, engineers, procurement officials, and policymakers already interested in learning more about offsite construction systems.

With a constantly-updated website and multiple in-person events, sponsors will receive year-round exposure and opportunities to connect with offsite professionals around the country.

If your company supplies the construction industry with offsite systems, *you should sponsor the Offsite Construction Network.*

There is simply no greater opportunity to reach key decision makers in the offsite construction industry.

WHY NOW?

OFFSITE IS BOOMING

And it's easy to understand why. According to a 2020 survey by Dodge Data & Analytics, seven specific aspects of construction project delivery have been positively impacted through the use of offsite and modular construction. At the top of the list were improvements to productivity, quality, and schedule certainty.¹

The charts below detail how architects/engineers, GCs/CMs, and trade contractors measure the top impacts of modular construction.¹

Architects/Engineers (% Reporting Medium, High, or Very High Contribution)

Improved Quality

Increased Schedule Certainty

Improved Productivity

GCs/CMs (% Reporting Medium, High, or Very High Contribution)

Improved Productivity

Increased Schedule Certainty

Improved Quality

Trade Contractors (% Reporting Medium, High, or Very High Contribution)

Improved Productivity

Increased Quality

Increased Schedule Certainty

WHY CHOOSE THE OFFSITE CONSTRUCTION NETWORK?

We've run successful offsite industry events across the country since 2015, and now we're broadening our focus to include curated industry news and exclusive digital content.

From in-person events to hosted video interviews to in-depth articles to educational webinars, the Offsite Construction Network has become a complete, multi-faceted resource for anyone involved or interested in the offsite construction industry.

Since the return of our in-person events and the expansion of our website, now is the time for your company to take full advantage of the Offsite Construction Network.

The numbers speak for themselves.
